all those who have died in Iraq and to call on our
elected representatives to stop the war now.**

(across from Roosevelt Field Mall)**

White Hands for Peace. Following the terrorist train bombings in Spain, millions of people took to the streets of Madrid. Many painted their hands white and held them in the air. The message was "Basta!" "Enough! We want peace now!" In solidarity with the millions of people around the world who are sending the same message to their leaders, we will cover our palms with white chalk on May 27 and hold them in the air. (We will bring the chalk. If you prefer not to chalk your hands, please wear white gloves.)

ACTION: Sign the enclosed message (include your address) and fax, mail, or hand deliver one each to Senators Clinton and Schumer and to your congressional representative. We want them to receive hundreds of hands by Memorial Day. Or call and relay the message over the phone. Call George Bush and John Kerry and tell them the same thing.
